journal of **dairy research**

Contents Volume 72

No. 1 (February 2005)

High variability of milk protein genes in *Bos indicus* cattle breeds of Cameroon and Nigeria and characterization of a new α_{s1}-casein promoter allele **EM Ibeagha-Awemu, E-M Prinzenberg and G Erhardt** 1

Effect of different milking routines on milking-related release of the hormones oxytocin, prolactin and cortisol and on milk yield and milking performance in Murrah buffaloes **CS Thomas, RM Bruckmaier, K Östensson and K Svennersten-Sjaunja** 10

Homofermentative lactic acid bacteria of a traditional cheese Comlek Peyniri from Cappadoccia region **C Bulut, H Gunes, B Okuklu, S Harsa, S Kilic, HS Coban and AF Yenidunya** 19

Potential applications of high pressure homogenization in processing of liquid milk **MG Hayes, PF Fox and AL Kelly** 25

Effect of protein concentration, pH, lactose content and pasteurization on thermal gelation of acid caprine whey protein concentrates **S Bordenave-Juchereau, B Almeida, J-M Piot and F Sannier** 34

Effects of hormones and growth factors on TGF-β1 expression in bovine mammary epithelial cells **J Zarzyńska, M Gajewska and T Motyl** 39

Visual appearance and CMT score of foremilk of individual quarters in relation to cell count of cows milked automatically **MD Rasmussen, M Bjerring and F Skjøth** 49

Development of a biosensor immunoassay for quantification of α_{s1}-casein in milk **S Muller-Renaud, D Dupont and P Dulieu** 57

Protein composition, plasmin activity and cheesemaking properties of cows' milk produced at two altitudes from hay of lowland and high-alpine origins **F Lieber, D Nigg, C Kunz, MRL Scheeder, H-R Wettstein and M Kreuzer** 65

Use of partial budgeting to determine the economic benefits of antibiotic treatment of chronic subclinical mastitis caused by *Streptococcus uberis* or *Streptococcus dysgalactiae* **JM Swinkels, J Rooijendijk, RN Zadoks and H Hogeveen** 75

Proteolytic patterns and plasmin activity in ewes' milk as affected by somatic cell count and stage of lactation **M Albenzio, M Caroprese, A Santillo, R Marino, A Muscio and A Sevi** 86

Video microscopy as an alternative method for evaluation of somatic cell count in milk **JA Baro, P Roldán, CE Carleos, GJ Grillo and MA Pérez** 93

Effects of milking regularity and unit attachment with robotic milking systems on milk yield **A Bach and I Busto** 101

Dietary *trans* octadecanoic acids upregulate the liver gene encoding Peroxisome Proliferator-Activated Receptor-α in transition dairy cows **KT Selberg, CR Staples, ND Luchini and L Badinga** 107

Chemical and rheological aspects of gel formation in the California Mastitis Test **D Whyte, M Walmsley, A Liew, R Claycomb and G Mein** 115

Arsenic concentration in water and bovine milk in Cordoba, Argentina **A Pérez-Carrera and A Fernández-Cirelli** 122

Evaluation of different preservation techniques on the storage potential of kefir grains **RC Witthuhn, A Cilliers and TJ Britz** 125

No. 2 (May 2005)

Fatty liver in dairy cows *post partum* is associated with decreased concentration of plasma triacylglycerols and decreased activity of lipoprotein lipase in adipocytes **AM Van den Top, A Van Tol, H Jansen, MJH Geelen and AC Beynen** 129

Physicochemical and sensory characteristics of whey protein hydrolysates generated at different total solids levels **D Spellman, G O'Cuinn and R FitzGerald** 138

Variation in composition of selected milk fraction samples from healthy and mastitic quarters, and its significance for mastitis diagnosis **BK Bansal, J Hamann, NT Grabowski and KB Singh** 144

The influence of technical factors on differential cell count in milk **AC Schröder and J Hamann** 153

The lantibiotic lacticin 3147 produced in a milk-based medium improved the efficacy of a bismuth-based teat seal in cattle deliberately infected with mastitic staphylococci **F Crispie, D Twomey, J Flynn, C Hill, P Ross and W Meaney** 159

Use of wild *Lactobacillus* strains in an adjunct culture for a Roncal-type cheese **M Ortigosa, C Arizcun, P Torre and J Izco** 168

Genetic transformation of *Brevibacterium linens* strains producing high amounts of diverse sulphur compounds **M Nardi, P Sextius, P Bonnarme, H Spinnler, V Monnet and F Irlinger** 179

Staphylococcus aureus leucocidins, a virulence factor in bovine mastitis **A Younis, O Krifucks, G Fleminger, ED Heller, N Gollop, A Saran and G Leitner** 188

Immunomodulating capacity of kefir **CG Vinderola, J Duarte, D Thangavel, G Perdigón, E Farnworth and C Matar** 195

Relationship between some *Staphylococcus aureus* pathogenic factors and growth rates and somatic cell counts **A Zecconi, E Binda, V Borromeo and R Piccinini** 203

Determination of lactate dehydrogenase (LDH) activity by a flourometric assay **T Larsen** 209

Effect of prior dietary exposure to cows' milk protein on antigen-specific and nonspecific cellular proliferation in mice **S Brix, O Magyar, V Barkholt and H Frøkiær** 217

Effects of high pressure on some constituents and properties of buffalo milk **T Huppertz, MR Zobrist, T Uniacke, V Upadhyay, PF Fox and AL Kelly** 226

Effect of chymosin and salt reduction on the quality of ultrafiltrated white-salted cheese **MM Al-Otaibi and RA Wilbey** 234

Effect of fermented milk containing probiotic bacteria in the prevention of an enteroinvasive *Escherichia coli* infection in mice **M Medici, C Vinderola, R Weill and G Perdigón** 243

Expression and nutritional regulation of lipogenic genes in mammary gland and adipose tissue of lactating goats **L Bernard, C Leroux, M Bonnet, J Rouel, P Martin and Y Chilliard** 250

No. 3 (August 2005)

Visual scoring of milk mixed with blood **MD Rasmussen and M Bjerring** 257

Growth hormone acts on the synthesis and secretion of α-casein in bovine mammary epithelial cells **K Sakamoto, T Komatsu, E Kobayashi, M Rose, H Aso, A Hagino and Y Obara** 264

Extraction and partial characterization of a coagulant preparation from *Silybum marianum* flowers. Its action on bovine caseinate **S Vairo-Cavalli, S Claver, N Priolo and C Natalucci** 271

Effect of quorum sensing agents on the growth kinetics of *Pseudomonas* sp. of raw milk origin **G Dunstall, MT Rowe, GB Wisdom and D Kilpatrick** 276

Kinetics of the thermal inactivation of the *Lactococcus lactis* bacteriophage P008 **M Müller-Merbach, H Neve and J Hinrichs** 281

Proteolysis during ripening of Manchego cheese made from raw or pasteurized ewes' milk. Seasonal variation **P Gaya, C Sánchez, M Nuñez and E Fernández-García** 287

Ultrasonographic measurement of the bovine teat: breed differences, and the significance of the measurements for udder health **D Klein, M Flöck, JL Khol, S Franz, HP Stüger and W Baumgartner** 296

Ultrasonic analysis of rennet-induced pre-gelation and gelation processes in milk **C Dwyer, L Donnelly and V Buckin** 303

Chemical and sensory analysis of strawberry-flavoured yogurt supplemented with an algae oil emulsion **CP Chee, JJ Gallaher, D Djordjevic, H Faraji, DJ McClements, EA Decker, R Hollender, DG Peterson, RF Roberts and JN Coupland** 311

A single nucleotide polymorphism in the sheep κ-casein coding region **M Feligini, V Slavica, V Cubric Curik, P Parma, GF Greppi and G Enne** 317

A comparison between feeding systems (pasture and TMR) and the effect of vitamin E supplementation on plasma and milk fatty acid profiles in dairy cows **JK Kay, JR Roche, ES Kolver, NA Thomson and LH Baumgard** 322

Evaluation ot tRNA intergenic spacer length polymorphism analysis as a molecular method for species identification of streptococci isolated from bovine mastitis **M Zschöck, S Manhold-Maurer, A Wescher, K Merl, I Khan and C Lämmler** 333

The manufacture of miniature Cheddar-type cheeses from milks with different fat globule size distributions **J O'Mahony, M Auty and PLH McSweeney** 338

Effect of forage conservation method, concentrate level and propylene glycol on the fatty acid composition and vitamin content of cows' milk **K Shingfield, P Salo-Väänänen, E Pahkala, V Toivonen, S Jaakkola, V Piironen and P Huhtanen** 349

Major and trace elements in organically or conventionally produced milk **J Hermansen, JH Badsberg, T Kristensen and V Gundersen** 362

Kinetics of heat-induced whey protein denaturation and aggregation in skim milks with adjusted whey protein concentration **DJ Oldfield, H Singh and MW Taylor** 369

Polymorphisms in the goat β-lactoglobulin gene **M Ballester, A Sánchez and JM Folch** 379

No. 4 (November 2005)

Specific effect of high-pressure treatment of milk on cheese proteolysis **M Buffa, B Guamis and AJ Trujillo** 385

Significance of frictional heating for effects of high pressure homogenisation on milk **N Datta, MG Hayes, HC Deeth and AL Kelly** 393

Bulk tank milk somatic cell count as an indicator of the hygiene status of primary milk production **D Rysanek and V Babak** 400

Visual scoring of clots in foremilk **MD Rasmussen** 406

Conjugated linoleic acid in ewe milk fat **P Luna, J Fontecha, M Juárez and M de la Fuente** 415

Economic impact of reduced milk production associated with Johne's disease on dairy operations in the USA **WC Losinger** 425

Regulation of genes encoding proteolytic enzymes during mammary gland development **DA Sorrell, M Szymanowska, M Boutinaud, C Robinson, RWE Clarkson, T Stein, DJ Flint and AF Kolb** 433

Heat-induced and other chemical changes in commercial UHT milks **AJ Elliott, N Datta, B Amenu and HC Deeth** 442

Effect of different ventilation regimens on ewes' milk and Canestrato Pugliese cheese quality in summer **M Albenzio, A Santillo, M Caroprese, R Marino, P Centoducati and A Sevi** 447

A *Ssp*1 PCR-RFLP detecting a silent allele at the goat *CSN2* locus **G Cosenza, A Pauciullo, D Gallo, D Di Berardino and L Ramunno** 456

Lipid metabolism during lactation: a review of adipose tissue – liver interactions and the development of fatty liver **RG Vernon** 460

Lactation curves of Sarda breed goats estimated with test day models **NPP Macciotta, P Fresi, G Usai and A Cappio-Borlino** 470

Evaluation of cooling strategies for pumping of milk – Impact of fatty acid composition on free fatty acid levels **L Wiking, HC Bertram, L Björck and JH Nielsen** 476

Operational cost minimization of heat pump for milk pasteurization in dairy **MS Söylemez** 482

Distribution of leucocyte populations, and milk composition, in milk fractions of healthy quarters in dairy cows **H Sarikaya, C Werner-Misof, M Atzkern and RM Bruckmaier** 486

Kinetics of changes in plasmin activity and proteolysis on heating milk **A Crudden, JC Oliveira and AL Kelly** 493

Special Issue (COST Action B20 August 2005)

COST Action B20: Mammary Development **A Baldi** 1

Breast cancer and sphingolipid signalling **P Signorelli and R Ghidoni** 8

Fluorescence Resonance Energy Transfer (FRET) microscopy in living cells as a novel tool for the study of cytokine action **A Gertler, E Biener, KV Ramanujan, J Djiane and B Herman** 14

Nerve Growth Factor mediates its pro-invasive effect through the release of soluble E-cadherin fragment from breast cancer MCF-7/AZ cells **L Dollé, MJ Oliveira, E Bruyneel, H Hondermarck and M Bracke** 20

Genetically modified mouse models to study the role of metastasis-promoting S100A4(mts1) protein in metastatic mammary cancer **N Ambartsumian, M Grigorian and E Lukanidin** 27

Functional study of the equine β- and κ-casein gene promoters **T Lenasi, N Kokalj-Vokac, M Narat, A Baldi and P Dovc** 34

Polyphenol interaction with the T47D human breast cancer cell line **A-P Nifli, M Kampa, V-I Alexaki, G Notas and E Castanas** 44

Role of progesterone metabolites in mammary cancer **JP Wiebe** 51

Autocrine prolactin as a promotor of mammary tumour growth **C Manhes, V Goffin, PA Kelly and P Touraine** 58

Biological effects of milk proteins and their peptides with emphasis on those related to the gastrointestinal ecosystem **A Baldi, I Politis, C Pecorini, E Fusi, C Roubini and V Dell'Orto** 66

Ataxia-Telangiectasia genes and breast cancer risk in a French family study **N Andrieu, E Cavaciuti, A Laugé, K Ossian, N Janin, J Hall and D Stoppa-Lyonnet** 73

The lactation cycle of the fur seal **JA Sharp, K Cane, JPY Arnould and KR Nicholas** 81

Complex mammary tumours in the female dog: a review **E Hellmén** 90

Feline mammary tumours in comparative oncology **V Zappulli, G De Zan, B Cardazzo, L Bargelloni and M Castagnaro** 98

Expression of the neonatal Fc receptor (FcRn) in the bovine mammary gland **B Mayer, M Doleschall, B Bender, J Bartyik, Z Bösze, LV Frenyó and I Kacskovics** 107

Analysis of the efficiency of the rabbit whey acidic protein gene 5′ flanking region in controlling the expression of homologous and heterologous linked genes **E Devinoy, L Montoliu, M Baranyi, D Thépot, L Hiripi, M-L Fontaine, L Bodrogi and Z Bösze** 113

Gene expression of factors related to the immune reaction in response to intramammary *Escherichia coli* lipopolysaccharide challenge **RM Bruckmaier** 120

Improved detection of *Mycobacterium paratuberculosis* in milk **E D'Haese, I Dumon, H Werbrouck, V De Jonghe and L Herman** 125
